INJECTOR CLEANER

Product #92000

Cleanses the entire fuel system to decrease emissions and improve drivability.

THE PROBLEM

Over time, fuel oxidizes and forms carbon deposits in the fuel injector orifices, fuel pump, filter, intake valves and inside the combustion chamber. This causes diminished fuel economy, hard starting, rough idling, excessive emissions and other performance and efficiency issues.

THE SOLUTION

BARDAHL PRO® Injector Cleaner is formulated with the latest PEA (Poly Ether Amine) fuel additive chemistry to remove harmful deposits from the injectors. This solution will increase the detergency of the fuel for better combustion, restoring power and improving fuel economy while removing harmful deposits and carbon buildup. The formulation contains no alcohol and is safe to use in all gasoline, including the new E15 blends.

THE BENEFITS

- Removes carbon, varnish and other deposits from the injectors
- Reduces drivability problems by eliminating stalling, hard starting and rough idling
- Improves fuel economy, restores performance and decreases emissions

DIRECTIONS

Add one bottle to the tank prior to filling-up with fuel. One 11oz bottle treats up to 20 gallons (75 liters) of gasoline. Use at every oil change or every 5,000 miles. Dispose of any used or unused solution and the container in accordance with the local, state and federal regulations.

Product Specifications

Product #	92000
Unit UPC#	0 76906 92000 1
Case UPC#	30076906920002
Pack Size	12x11U.S. fl oz (325 mL)
Dimensions	L x 11" W x 8" H 8.5"
Weight & Cubic ft ³	12 lbs / 0.43 ft ³
Color	Light Amber
Specific Gravity	0.850
Viscosity	N/A
Flash Point	>141°F / >60°C
