# FUEL CONDITIONER +OCTANE BOOSTER

Product #92025

Improves Quality of Regular Gasoline by Adding Detergents and Increasing Octane Rating.

## THE PROBLEM

Most OEMs recommend the use of "Top Tier" detergent gasoline to keep fuel systems clean and operating efficiently. However, the current EPA minimum detergent requirements are below this standard and most gasoline sold in the US is insufficient to maintain engine performance and fuel economy. Also inadequate octane in a fuel can result in less than complete combustion causing decreased performance and increased emissions. In newer vehicles there is a loss of fuel economy, and in older cars, lower octane can cause 'knocking and pinging' that can seriously damage the engine.

## THE SOLUTION

BARDAHL PRO® Fuel Conditioner +Octane Booster utilizes an ultra concentrated formula that adds detergents to the fuel and increases the octane rating number of the gasoline. The conditioner keeps the injectors and intake valves clean to maintain power and prevent drivability problems. This product includes MMT, an effective chemical compound that when added to a full tank will increase the octane of the gasoline by at least 1 unit, improving the efficiency of the fuel system and increasing fuel economy.

## THE BENEFITS

- Increases the octane rating of gasoline
- Disperses water and protects against rust and corrosion
- Reduces stalling, hard starting, rough idling and prevents drivability problems
- Keeps injectors and intake valves clean to maintain power
- Stops knocking, pinging and engine 'run-on' to prolong the life of a vehicle
- Decreases exhaust emissions and improves fuel economy
- Safe to use; will not harm O2 sensor, catalytic converter or other components

## DIRECTIONS

Add one bottle to the fuel tank prior to filling the tank up with fuel. One bottle treats up to 21 gallons (80 liters) of gasoline. Dispose of any used or unused solution in accordance with the local, state and federal regulations.

### Product Specifications

Product #	92025
Unit UPC#	0 76906 13028 8
Case UPC#	30076906130289
Pack Size	24x5 U.S. fl oz (148 mL)
Dimensions	L x 12.5" W x 7.5" H 8.5"
Weight & Cubic ft <sup>3</sup>	9.4 lbs / 0.43 ft <sup>3</sup>
Color	Light Amber
Specific Gravity	0.860
Viscosity	N/A
Flash Point	>141°F / >60.5°C
