# CVT-1 FLUID CLEANER

Product #93209

Cleans and removes deposits from CVT prior to draining fluid.

## THE PROBLEM

Over time, CVT fluid breaks down and oxidizes limiting its ability to protect the system while keeping it cool and lubricated. Oxidized fluid leaves behind sticky deposits and accumulates on components and housing surfaces, reducing the efficiency of the system.

## THE SOLUTION

Bardahl PRO® CVT Fluid Cleaner is formulated specifically for cleaning and removing deposits built up from the continuously variable transmission (CVT). It contains a dispersant and detergent that removes harmful deposits, varnish and accumulated sticky buildup throughout the system. Bardahl PRO® CVT Fluid Cleaner will not harm transmissions when used as directed. Suitable in both CVT and DCT (dual clutch transmissions). It contains no harmful solvents allowing for easy disposal.

## THE BENEFITS

- Effective detergent and dispersant
- Removes and suspends oxidation and deposits in CVT fluid prior to fluid exchange
- Safe for belt and chain driven systems
- Use with each fluid exchange to maximize system efficiency

## DIRECTIONS

Add CVT Cleaner to transmission prior to installing new fluid. Raise the drive wheels off the ground and operate the transmission. Drain and replace fluid. Add BARDAHL PRO® CVT Conditioner to new fluid. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

### Product Specifications

Product #	93209
Unit UPC#	0 76906 93209 7
Case UPC#	30076906932098
Pack Size	12x11 U.S. fl oz (325 mL)
Dimensions	L x 11" W x 8" H 8.5"
Weight & Cubic ft <sup>3</sup>	10 lbs / 0.43 ft <sup>3</sup>
Color	Amber
Specific Gravity	0.880
Viscosity	7.0 cSt. @100°
Flash Point	N/A
