BATTERY CLEANER and LEAK DETECTOR

Product #94156

Battery terminal cleaner cleans and prevents future corrosion

THE PROBLEM

Battery terminals and cables often develop corrosion that impedes optimal flow of electrical current essential to operating vital vehicle systems and computers.

THE SOLUTION

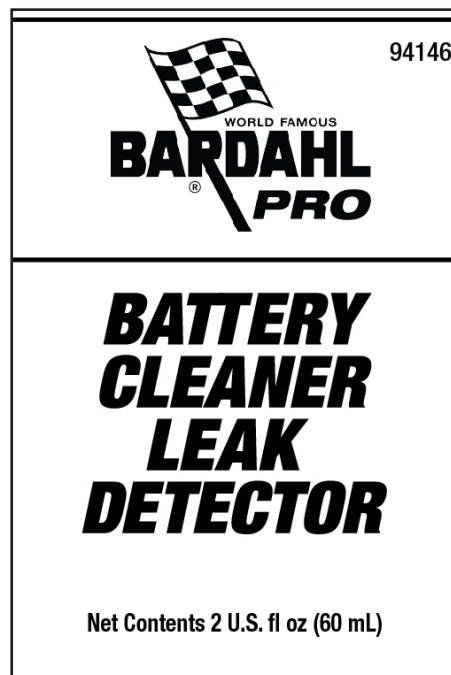

BARDAHL PRO® Battery Terminal Cleaner detects any electrolyte leaks and cleans the battery terminals to restore the electrical connection with the cables and prevent corrosive damage to cables and terminals.

THE BENEFITS

- Detects electrolyte leaks from battery
- Cleans terminals by removing existing corrosive deposits
- Restores connection between the cable and the terminal

DIRECTIONS

Apply the entire contents over the battery including side terminals and connections (if applicable). Allow to stand for 3 to 5 minutes. If leaking acid is detected, solution will change color from blue to yellow. Use a brush to remove corrosive deposits and rinse with water. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

Product Specifications

Product #	94146
Unit UPC#	N/A
Case UPC#	N/A
Pack Size	24x2oz (60 mL)
Dimensions	L x 0.0" W x 0.0" H 0.0
Weight & Cubic ft³	11 lbs / 0.00 ft³
Color	Blue
Specific Gravity	1.000
Viscosity	N/A
Flash Point	>212°F / >100°C
