BRAKE ANTI-SQUEAL

Product #94160

Lubricates and eliminates noise from disc brakes

THE PROBLEM

Disc brakes will often develop squeaks and squeals during light braking due to the high frequency vibration of the pads and the shims.

THE SOLUTION

BARDAHL PRO® Brake Anti-Squeal is a simple and convenient solution to eliminate typical brake pad noise. This solution reduces the vibration of the pads and shims to eradicate the squeal that often occurs during stop and go driving.

THE BENEFITS

- Improves pad and rotor life
- Reduces brake dust accumulation on the pad
- Reduces brake noise during stop and go driving

DIRECTIONS

Clean brake pads with **BARDAHL PRO® Brake Parts Cleaner # 94156** and then apply this solution evenly and thoroughly to the pad surface. When the pad is dry, apply a second coat to ensure proper coverage. Let dry 15 minutes. Test brakes before driving. Use whenever a brake service is being done, during brake component replacement, or as recommended by a technician. Dispose of any used or unused solution and container in accordance with the local, state and federal regulations.

Product Specifications

Product #	94160
Unit UPC#	N/A
Case UPC#	N/A
Pack Size	24x1oz (29.5mL)
Dimensions	L x 7.5" W x 5.25" H 3.5"
Weight & Cubic ft ³	1.8 lbs / 0.08 ft ³
Color	Black
Specific Gravity	0.840
Viscosity	N/A
Flash Point	>50°F / >10°C
